

Usporedba temperatura postignutih u solranim kuhalima

Primjena Micro:bit-a u nastavi i
izvannastavnim aktivnostima
Tehničke kulture

Maris Miloš
OŠ Mladost, OŠ "Dominik Savio"

Solarno kuhalo

1

Rad predstavlja unaprjeđenje Solarnog kuhala, zadatka kojeg izrađuju učenici sedmih razreda na nastavi Tehničke kulture.

2

Ideja je na brz i zanimljiv način ustanoviti koje je solarno kuhalo bolje, odnosno u kojem će micro:bit zabilježiti veću temperaturu.

postavljanje radija i
čitanje temperature

KOD

```
on start
  radio set group [12]
  show number [temperature (°C)]
  show string [" " °C"]
  radio send number [temperature (°C)]
```

The Scratch script consists of the following blocks:

- An **on start** hat block.
- A **radio set group [12]** block.
- A **show number [temperature (°C)]** block.
- A **show string [" " °C"]** block.
- A **radio send number [temperature (°C)]** block.

postavljanje radija i
čitanje temperature

KOD

```
on start
  radio set group 12
  show number temperature (°C)
  show string " " °C"
  radio send number temperature (°C)
```

radijska veza

```
on radio received receivedNumber
  set T-radio ▾ to receivedNumber
```

postavljanje radija i
čitanje temperature

```
on start
  radio set group [12]
  show number [temperature (°C)]
  show string [" " °C"]
  radio send number [temperature (°C)]
```

radijska veza

```
on radio received [receivedNumber]
  set [T-radio v] to [receivedNumber]
```

KOD

```
every [1500 ms]
  show number [temperature (°C)]
  show string [" " °C"]
  if [T-radio v] < [temperature (°C)] then
    play [melody dadadum v] until done
    show icon [grid v]
  end
  clear screen
```

Micro:bit v2

Revolucija digitalne pismenosti

započeo je u šk. god.
2023./24.

- traje 2 školske godine,
- donacija opreme koja se sastoji od 55 micro:bita V2,
- obveza pohađanja radionica (3 po godini).

Vizualna upozorenja

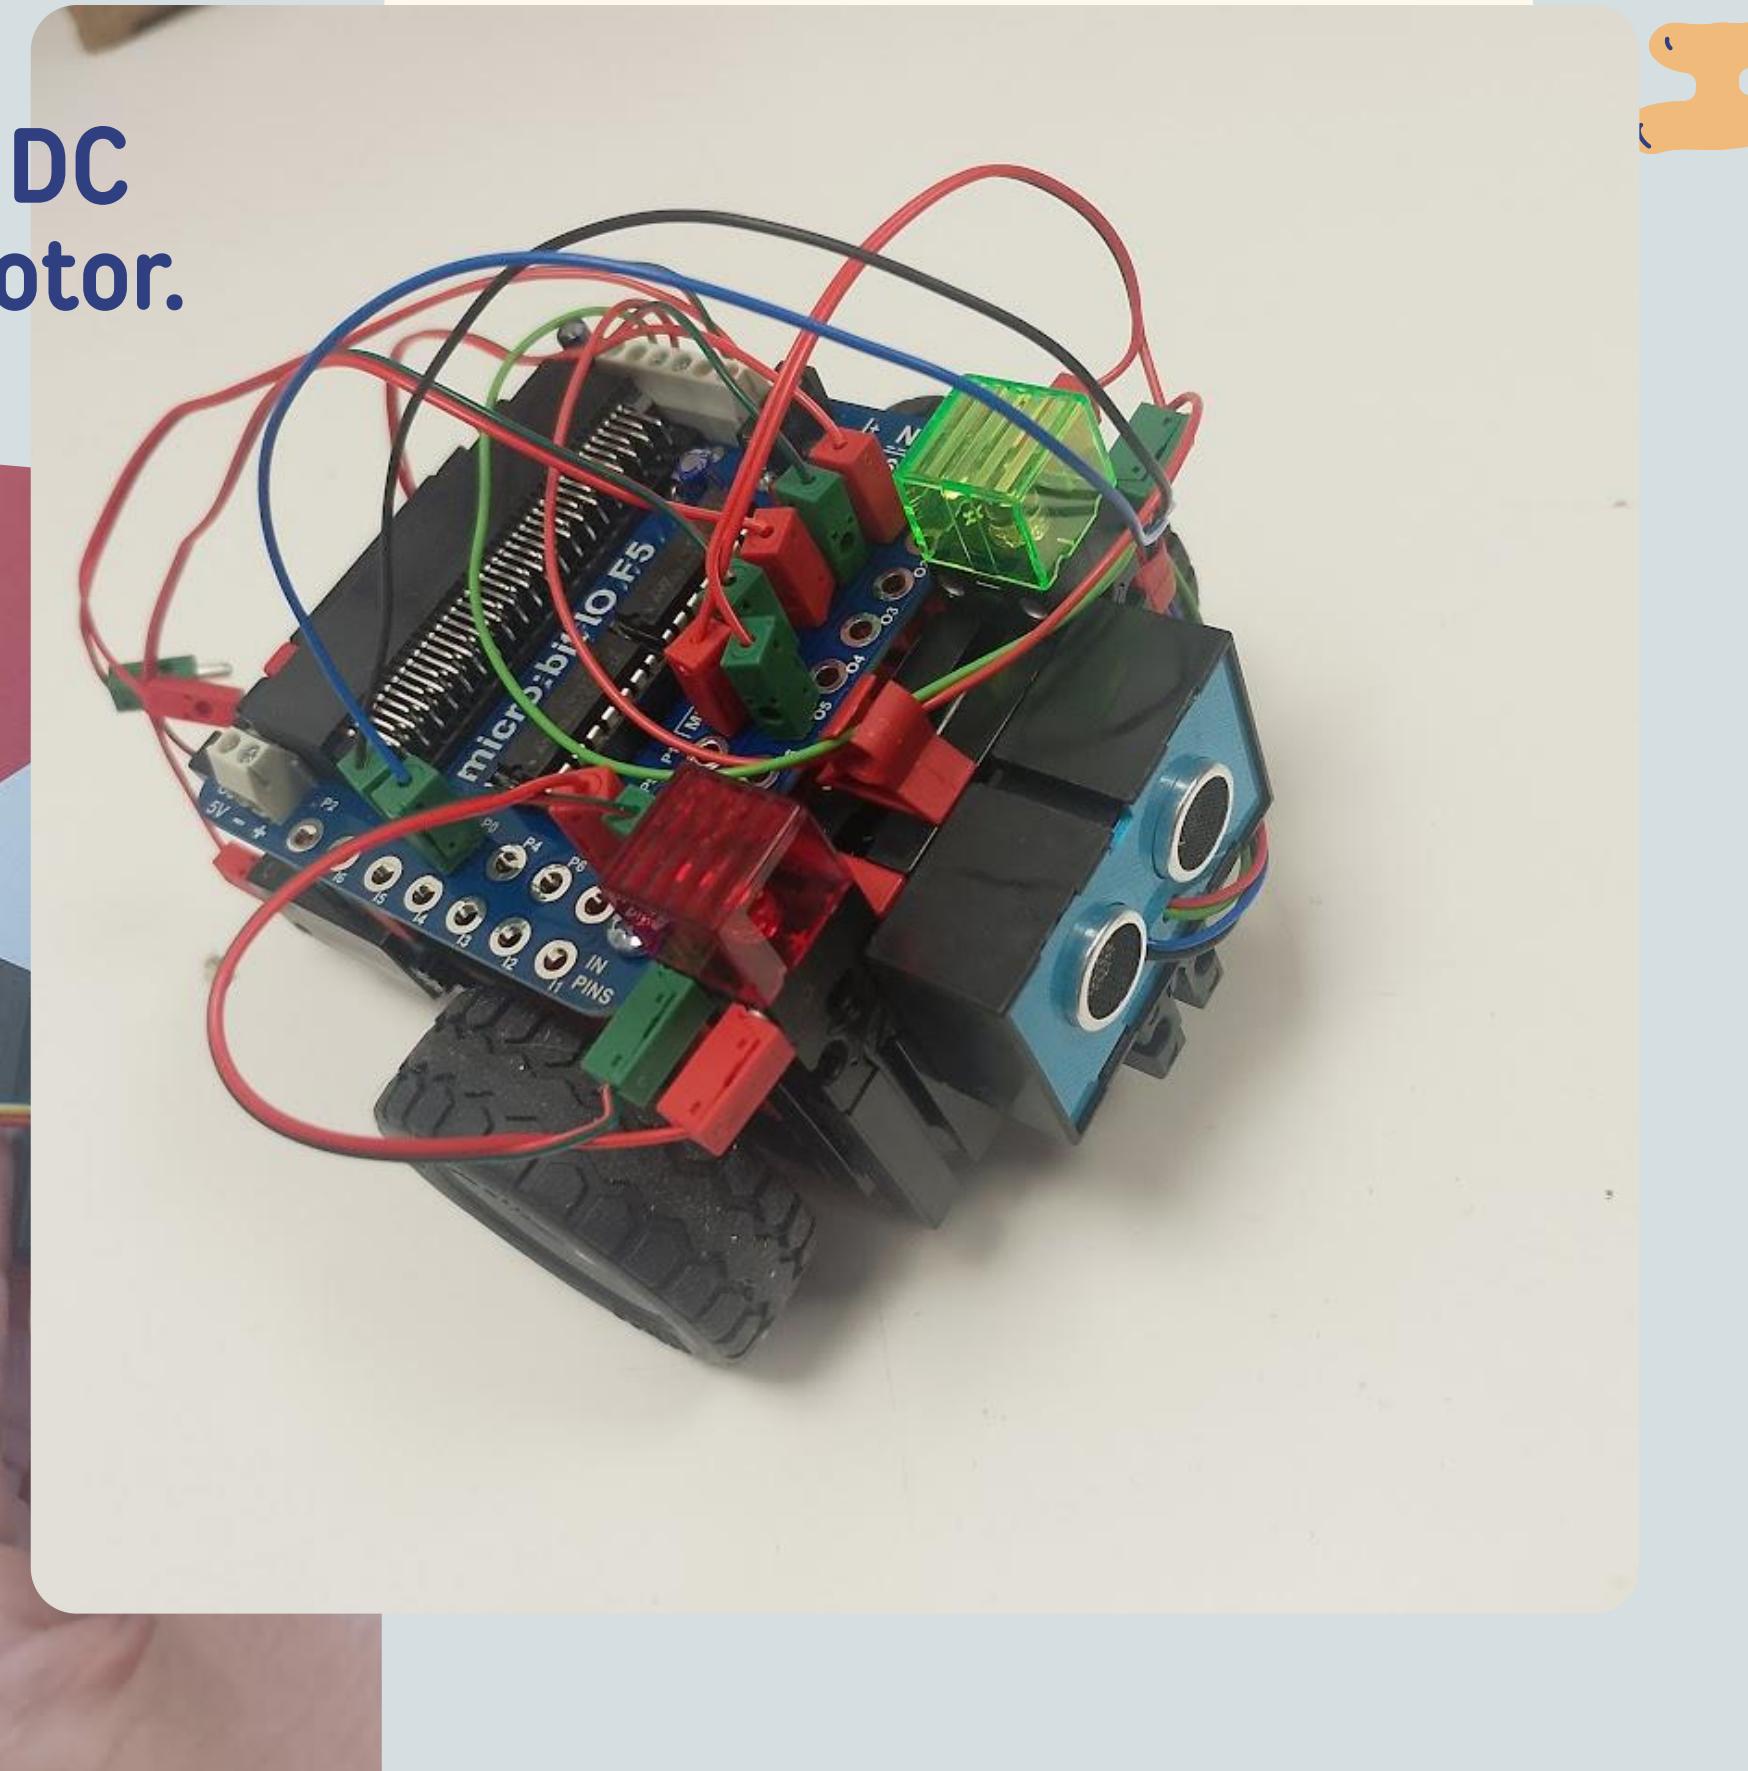

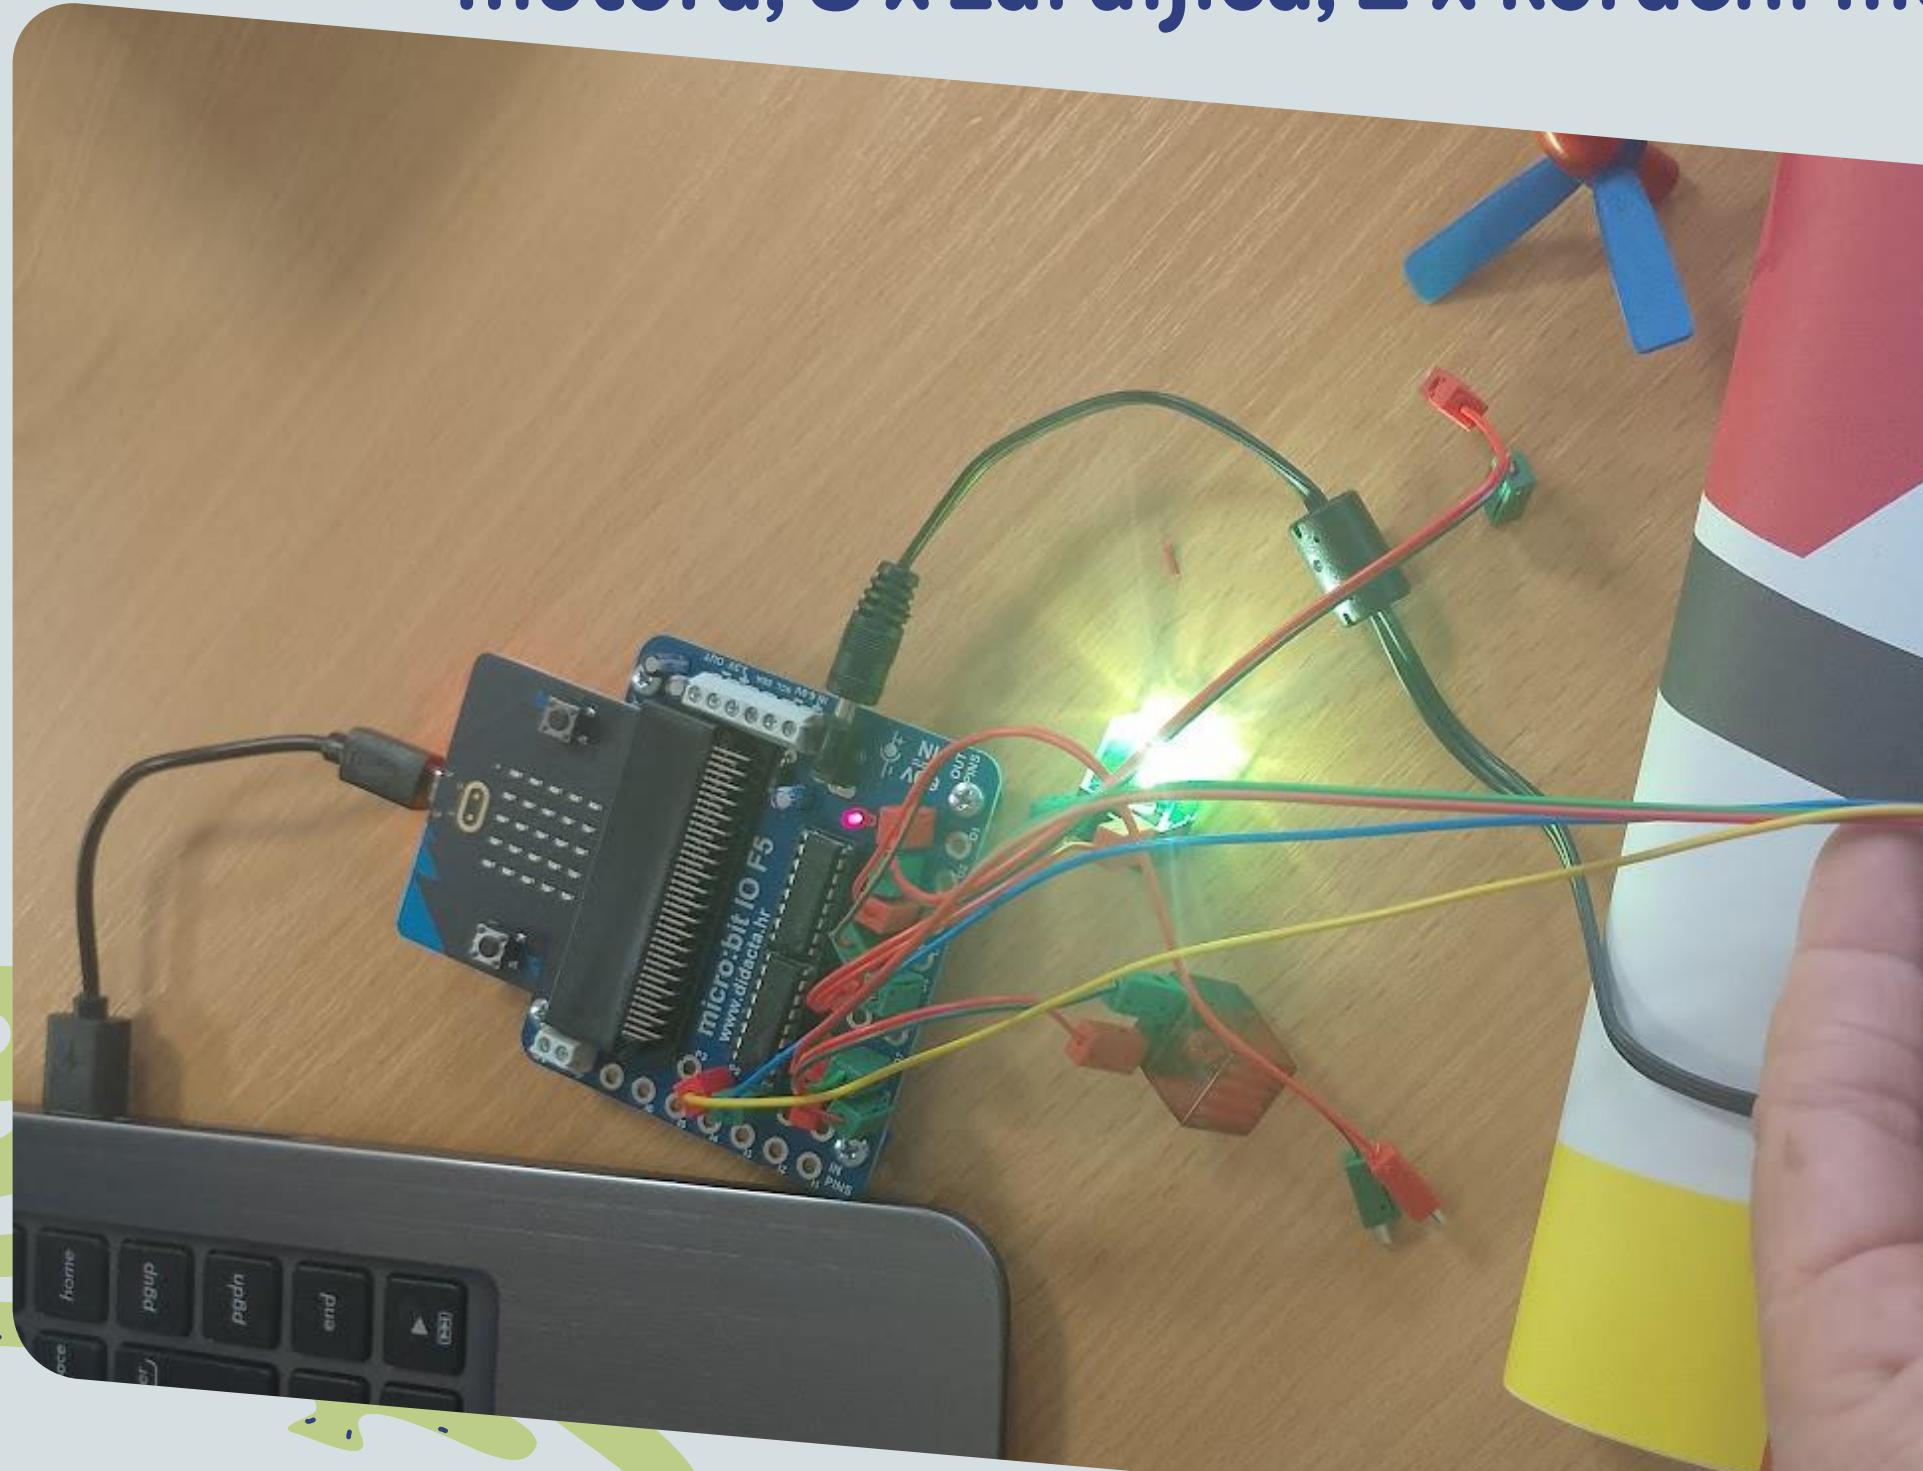

Upravljanje načinom rada svjetlećih dioda

Primjer zadatka za županijski Robokup

Dodatak za eksperimentalnu pločicu

micro:bit: IO F5 sučelje

Izlazi za spajanje standardnih 4 x DC motora, 8 x žaruljica, 2 x koračni motor.

Hvala na pažnji!
